Dear National Translations Center User,

The John Crerar Library has been merged with the University of Chicago Library, and the combined science collections will be housed in a newly constructed building on the University campus. As a result of this merger, the National Translations Center (NTC) became a part of the University of Chicago Library.

The NTC's functions are being incorporated into the University's services and programs. We are exploring ways of making operational procedures more efficient and have begun the process of automating the Center's records of translations information. As a result of this automation, the Translations Register-Index (TRI) will be computer producted and will include improved means of access to translations information. We are confident that the resulting publication will be of superior quality. Longer range automation objectives include the compilation of a 17-year (1967-1983) Cumulative Index to TRI and online access to NTC records. Because we are now completing the specification of automation products, we would appreciate any of your suggestions about how the publications or our services could be of increased usefulness to you.

As of August 1, 1984, our mailing address will be as follows:

The National Translations Center
The John Crerar Library of the
University of Chicago
5730 South Ellis Avenue
Chicago. Illinois 60637

Telephone: 312-962-7060

Please accept our sincere appreciation for your understanding of the delay in receipt of the TRI during this period of change. We assure you that all subscribers will receive a full year's subscription value . An interim author list of 1984 translation entries is in preparation and will be mailed to all subscribers very shortly . Subsequent interim lists will be issued as necessary until improved computer-produced publication is mailed to you.

During this period of improving operations and revising publication methods, the NTC services of supplying copies of translations and location information continue to be fully available. Please do not hesitate to contact us for such service.

Sincerely

Ildiko D. Nowak
